CALGARY BOARD OF TRADE CANCELS BLAIRMORE VISIT

As only about 25 members of the Calgary Board of Trade up to yesterday signified their intention of taking in the excursion to Blairmore, we understand that the visit has been postponed indefinitely.

ST. LUKE'S CHURCH

Children's Day, Sunday, October 21.

Special Service for children and adults at 11 a.m. Mr. T. Johnson, of Coleman, will sing "The Refuge of the Soul," and "My Mother's Prayer."

MINERS' DELEGATE SUICIDES

Dan McNeill, a delegate from Cadomin to the U. M. W. of A. convention at Calgary, suicided by throwing himself in front of a Calgary street car on Wednesday morning. McNeill had been walking the street in company with P. M. Christophers, M.L.A. for this riding. He was about 39 years of age and leaves a wife and children residing at Cadomin.

Lady barbers have been refused admission to the convention of the American Federation of Labor. They have also been refused a charter as an organized body.

NEW \$2 DOMINION NOTE

Ottawa, Oct. 10.—A new Dominion \$2 note has just been placed in circulation by the Department of Finance. On the face of the bill is a new steel engraved portrait of His Royal Highness the Prince of Wales and the date of issue is June 23, 1923—the last birthday of the prince. The Department has taken advantage of the presence in Ottawa of the Prince to introduce his bill.

The new note is of striking design and is altogether one of the most artistic that has been issued by the Department in recent years. The back carries an excellent engraving of the new coat-of-arms of the Dominion. The color printing on front and back is a pleasing shade of olive green.

The new Prince of Wales issue will be gradually placed in circulation and will in time supplant the old Connaught \$2 note, which has been in circulation since 1914.

Mr. Fielding has submitted to the Prince for his acceptance the first issue, No. 1, of the new note.

Mr. Allan Hamilton was the choice of the prohibitionists as chairman of the meeting here on Monday night.

Six thousand miles from Calgary on the night of September 23rd, the service of Grace Presbyterian church was heard over radio in England, establishing a record.

D. O. K. K. CEREMONIAL

Last night at Coleman the votaries of Khorassan truly feasted. The festivities started at about 6.30, when some hundred members of the Brotherhood lined up in procession and were led around the beauty spots of Coleman in care of our local guardian "Tiny" Garrison. The procession was enlivened with ancient music and with an array of colors and otherwise gorgeous robes that attracted a great amount of attention from citizen spectators.

Retain was made to the opera house, where all assembled at 8.30 for the purpose of vowing a weary way over the sandy deserts. Camels, tigers, mules, goats, etc., were there in all reality and desperate were the struggles of those engaged in an effort to gain a higher plane in life.

Candidates to the number of 41 were found capable of enduring the tests and were made full fledged votaries of Omar Khayyam Temple No. 141.

A team from Omar Khayyam Temple, Lethbridge, numbering thirty-three, were in attendance and conferred the work in a most capable manner. Duncan A. McArthur acted as Royal Vizier.

At the conclusion of the ceremonial, all repaired to the new K. of P. banquet room, where tempting viands were dealt with in the customary manner. Following the banquet, a hearty vote of thanks was accorded the Sisters for the splendid supper served.

We understand that it is the intention to in the very near future organize a D.O.K.K. branch in this district. So far the location has not been decided upon, but in all probability Blairmore will be chosen as the most central.

WOOD—HIND

A quiet wedding took place at First Baptist church, Guelph, Ontario, on Wednesday, October 3rd, when Minnie Mae, youngest daughter of the late Mr. Stan Hind and Mrs. Hind, of Hagerville, Ontario, became the bride of Mr. Milo A. Wood, only son of the late David and Mrs. Wood, of Jarvis. The ceremony was conducted by Rev. T. J. Hind, cousin of the bride. The bride, formerly a resident of Frank and Calgary, Alberta, presented a very pretty picture in her travelling suit of navy tricotine embroidered in grey, with which she wore a love grey feather hat and mink fur. After the ceremony, Mr. and Mrs. Wood left for Toronto, Ottawa and other points. Miss Hind was for a time deaconess at Frank and Blairmore.

DEATH OF PROF. S. D. KILLAM

The death of Professor S.D. Killam has left the University of Alberta a poorer place for many people and in many ways. Since 1913, when he joined the staff, he has been one of its ablest and most valued members. After taking his doctor's degree at Göttingen, he taught for a year at the University of Rochester; from there he came to Alberta. A well-trained and modest scholar, who had done good work in his special field of mathematics, he was also a skilful and popular teacher. No man had less of pedantry or pettiness. His happily blended nature found a tireless zest in everything he did and made others find it also. He touched many sides of life at the University and none without forming genial relationships and without winning respect for his energy and courage. His army record both in Canada and overseas, his teaching in the Khaki University after the Armistice, his work in the Officers' Training Corps on his return, these showed his resourcefulness in meeting all kinds of situations and his genius for making friends. He cannot be replaced, but he will be long remembered and the University is richer for his years in its service.—R.K.G.

WINS BYNG MEDAL

Miss Kathleen Smith, daughter of Mr. James Smith, of Lundbreck, a pupil of St. Michael's separate school, received a letter from the Edmonton registrar, enclosing the Governor-General's Bronze Medal donated by Lord Byng to the candidate receiving the highest marks in the Macleod Inspectorate at the public school leaving examinations in June of this year.

The medal is inclosed in a fine leather case, lined with satin and plush, medal and case being the work of the Goldsmiths' Corporation of London, England. The medal has on one side the portraits of Lord and Lady Byng beautifully modelled, on the reverse the British coat of arms. Around the portrait faces are the words: "His Excellency the Governor-General of Canada, Lord Byng." The bronze memento is circular in shape, and about the size of an American trade dollar.

For funeral flowers phone 212, Crows' Nest Pass Undertaking Co.

THE PRINTER'S DEVIL

"Printers' Devil" was the name formerly given to the boy who took the printed sheets from the tympan of the press. He got himself so bedaubed with black that the workmen called him a devil, jokingly.

Printing used to be called the black art and the boys who assisted the pressman were called imps. According to a legend, Aldus Manutius, a printer of Venice, had a little negro boy who was left behind by a merchant vessel to assist him in his business. It soon got about that Aldus had a black imp to assist him, and to dispel the rumor he showed the boy to the crowd, saying: "Be it known that I, Aldus Manutius, printer to the Holy Church and the dogs, have this day made a public exposure of the printer's devil. All who think he is not flesh and blood may come and pinch him." The people were satisfied and no longer molested the negro lad.

Toilet Articles

We have the largest assortment of Toilet Articles in the district and would be pleased at any time to show them to you. Also a full line of Talcum, Creams, Soaps, Etc.

A full line of School Books, Scribbles, Pens, Pencils, Erasers, Ink, Etc., in stock. Send the children here and we will send them away satisfied with their purchases.

Enormous Wheat Yields

Stories of Surprising Yields of Wheat in Southern Alberta

G. C. Cooke, Member of Parliament for the MacLeod constituency, holds the unofficial record for the bumper wheat yield in South Alberta.

From a field of 25 acres on his farm near Nanton, Mr. Cooke threshed 1,321 bushels of wheat, an average of more than 75 bushels to the acre. He has not yet finished the threshing, but his whole crop is going well over 60 bushels to the acre.

St. Cockran runs Mr. Cooke close with a yield of 68½ bushels on his farm near Stavely.

In the same district, J. S. Brown threshed an average of 52 bushels to the acre on 120 acres of summer fallow. All summerfallow in the district that was not killed is running from 40 to 50 bushels to the acre.

One hundred and five bushels of wheat were threshed on a one-acre patch on the farm of the provincial school of agriculture at Olds, Alta., according to information received from P. S. Grisdale, director of the Olds school. This is believed to be the record wheat yield for one acre in the history of agriculture in Alberta, Mr. Grisdale said.

The variety of wheat which gave such a stupendous yield was Marquis. It was grown only on this one small patch and graded No. 1 Northern.

Two hundred, and five bushels of oats were threshed on one acre on the farm during the same week. On 27 acres of barley an average yield of 70 bushels to the acre was threshed, while on another 10 acres a different variety of barley yielded 80 bushels to the acre.

End Stomach Trouble, Gas Or Indigestion

"Pape's Diapensin" is the quickest, surest relief for indigestion, gases, flatulency, heartburn, sourness, fermentation or stomach distress caused by acidity. A few tablets give almost immediate stomach relief. Correct your stomach and digestion now for a few cents. Druggists sell millions of packages of Pape's Diapensin.

Increase in Farms

British Columbia Is Forging Ahead As An Agricultural Country

While the average size of farms in British Columbia diminished somewhat during the period between 1911 and 1921, a very considerable increase in the number of farms was registered.

The number of occupied farms of one acre or over in British Columbia in 1921 was 21,753, as compared with 16,958 in 1911, and 6,501 in 1901. Farm acreage in 1921 was 7,500,528, as against 2,640,013 in 1911, and 1,347,419 in 1901, representing a gain of 60.6 per cent. over the twenty-year period.

The value of all farm property in the province increased from \$188,635,724 in 1911, to \$201,379,643, or 6.8 per cent.

BABY'S OWN TABLETS AN EXCELLENT REMEDY

When the baby is ill—when he is constipated, has indigestion, colic, or simply cries and cries, or when the mother will find Baby's Own Tablets an excellent remedy for the baby's stomach and bowels, thus hastening the cure of most of the ills of childhood. Containing them Mrs. E. D. Dugan, Thunder River, Que., says: "My baby was a great sufferer from colic and cried continually. I began giving him Baby's Own Tablets and the relief was wonderful. I now always keep a supply of the Tablets in the house." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Cigarette Commended

Most Suitable Form of Smoke, Says Medical Authority

Commendation of the cigarette as the most suitable smoke was given recently by Dr. Royal S. Copeland, formerly Health Commissioner for the City of New York and now a United States Senator. Dr. Copeland is a non-smoker and he dealt with the question from the purely scientific standpoint.

Dr. Copeland says that the cigarette is the most suitable smoke, as the tobacco taken in that form is more perfectly consumed, and as combustion is better, the nicotine is practically destroyed. "There can be no doubt," he said, "that smokers find solace and comfort in the moderate use of tobacco."

Dr. Copeland's statement confirmed the pronouncement made some years ago by the Lancet. As the result of an investigation, conducted by that eminent medical journal, the Lancet pronounced that the cigarette is the purest form in which tobacco can be smoked.

London's Working Population

Over 40,000 Pour Into City Every Day

The daily ebb and flow of the tide of humanity from the City and County of London is described in the new census volume dealing with "Workplaces in London and the Five Home Counties." The total of "occupied" persons in the whole area was, in round figures, about four and a half millions. Nearly two millions returned themselves as having their workplaces outside the area of residence. The great majority of the population who work in London live within a ten-mile circle. This accounts for the pressure on local trams and omnibus services and on the suburban railways night and morning. Roughly, 465,000 persons pour into the city area daily, the night population, or residents, numbering less than 400,000. Over a quarter of a million people come into the West-midland area, where the Government offices are situated; and Finsbury, Holborn and Marylebone attract the next largest crowds in the order named.

On the daily inflow of 400,000 to the one square mile, nearly a quarter of a million come from the adjoining County of London. Of the outside counties, Essex is the largest contributor, with 175,022. Nearly 7,000 come daily from as far afield as Southend-on-Sea, some thirty-five miles away. Middlesex, with 55,565, stands next among the contributing counties; the largest numbers coming from Herts (5,799) and Tottenham (5,239).

Minard's Liniment Relieves Colds

Canada's Record Grain Crop

Notable Gain Over Last Year Shown in Western Provinces

Particulars received at Ottawa warrant an estimate of crop yield in Canada this year compared with last year as follows: Fall wheat, 19,751,000 bushels against 19,956,000; spring wheat, 469,957,000 bushels against 389,530,400; all wheat, 470,228,000 bushels against 399,736,400 bushels; oats, 535,124,000 against 491,235,000; barley, 80,048,000 against 71,965,300; all rye, 28,159,400 bushels against 32,372,400.

For Ontario the estimates are: All wheat, 19,101,000 bushels against 19,893,000; oats, 99,408,000 against 116,034,000 bushels; barley, 13,235,000 against 13,972,000 bushels; fall rye, 1,574,000 against 2,500,000 bushels; flax, 35,000 against 45,000 bushels.

For the three prairie provinces the estimates are: Wheat 446,775,000 against 375,184,000 bushels; oats, 354,476,000 against 289,660,000 bushels; barley, 42,446,000 against 59,612,000 bushels; flax, 25,711,000 against 28,439,000 bushels; and flax seed, 6,832,000 against 4,901,700 bushels.

Northwest Indians Get More Reserves

Government Sets Aside Additional Territory in North Country

Because there is grave danger of the "Hudson's Bay" natives of the Northwest Territories being reduced to want and starvation unless further areas are reserved as hunting and trapping preserves for their use, the government has passed an order to set aside additional additional reservations in the Northwest Territories. The order states that increasing numbers of foreign and other non-resident hunters and trappers are going into the country and depleting game and fur resources. It provides that license shall confer the right to hunt or trap on Victoria Island, Banks Island, or on a number of other areas to be known as "Peel River, preserver, Yellow Knife, preserver, Back River, preserver and Slave River, preserver."

Catch Limit Reached

Fifty Cars of Fish Shipped From Lesser Slave Lake

Fifty cars of fish were shipped this morning from the Lesser Slave Lake to various points in Canada and the U.S.A., the majority, however, going to cities in the Eastern American states. These shipments were practically all whitefish, the balance being disposed of in the local markets.

The fishing closed on September 22nd, and during the last week a considerable quantity of pickerel and pike were taken, while the whitefish had not at that time come up into the shallow waters. About seventy-five men were employed by the various companies and the catch limit set by the fisheries department was reached.

Good-bye Asthma. Persons suffering from that extremely trying trouble known as asthma know what it is to long for relief. There is relief for you as from a tyrant. Never do they know when an attack may come and they know the terrible struggle unless they have "With Dr. J. D. Kellogg's Asthma Remedy" at hand, however, they can say good-bye to their money and enjoy life again. It helps at once.

Eskimos Do Not Like Sweet Things

Children Have No Taste for Candy or Ripe Fruit

Two brave travellers, Knud Rasmussen, a Dane, and Vilhjálmur Stefánsson, a Norwegian-Canadian, have recently written big books telling so much about the Eskimo race that readers outside the Arctic Circle may now know them well.

One curious fact is that Eskimo children do not like sweets in any form, either as candy or as fruit or as ice cream. Delicious berries growing all around them they will not touch.

An Eskimo mother, usually a very merry person, becomes really angry with anyone who offers her children sweetmeats, and the children turn away with repulsion, so great is the power of training and habit.

But a lump of fat will cause the Eskimo child's eyes to sparkle, and mother will smile approvingly.

For the Guidance of Youth

This is from a French manual for the guidance of youth, first published in 1115, which ran through 50 editions in the course of the Eighteenth Century. "For the sake of cleanliness it is well to rub the face every morning with a white towel in order to remove the dirt. It is not advisable to wash with water, for this exposes the face to the chills of winter and the heat of summer." A similar work, published in 1667, warns children that "to wash the face in water injures the eyesight, brings on toothaches and colds and engenders pallor."

Minard's Liniment For Sprains

Especially for women who live on farms

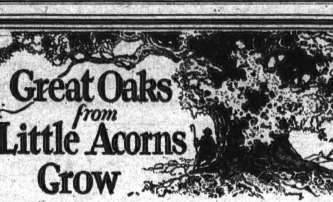

Aunt Jemima Pancakes—thousands of farm families have them regularly these days. They're so easy to get and their old-time Southern flavor makes a hit with everyone.

Now, in response to requests, Aunt Jemima Pancake Flour comes in larger packages, nearly three times as large as the regular cartons. More convenient; more economical. No waste from spilling as with sacks. But the same flour—Aunt Jemima's famous Southern recipe recipe mixed.

Ask your grocer for the big Aunt Jemima package.

World's Time For Radio

Map Eliminates Need for Calculation By Berlin Operators

At the immense new central transmitting station in Berlin, it was imperative that the sending operators should know the exact time in any other part of the world at a given moment. Some form of clock was found necessary, that would indicate day and night, and simultaneously indicate the time at all other important radio stations throughout the world.

A map of the world was therefore placed on a circular glass dial, on the outer edge of which twelve-hour scales were graduated at five-minute intervals. This dial, being darkened around half the edge, to indicate where it is night, is moved around by clockwork. Arrows extend from the stations on the map to the edge, indicating the approximate times at any given moment. The entire device, moving across the shaded area, eliminates need for calculation by the operator.

Sleep is the great nourisher of infants and without peaceful sleep the child will not thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powders will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate baby, and there is nothing so effective for restoring the health of a worn-out infant.

Population of China

China has a population of 436,004,953, according to the annual report of the Chinese post office. The figure is only a vague estimate, compiled from reports of provincial offices, as no systematic method of census taking is followed.

One of the needs of the hour is a pocket alarm that will enable the pedestrian to fly across the street—Boston Transcript.

The Poor Man's Friend.—Put up in small bottle that is easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Diamonds may be black as well as white, and some are blue, red, yellow, green, pink and orange, but there is no violet diamond, although, in addition to amethysts, there are sapphires, rubies and garnets of that color.

Filling Station For Pens

New Innovation On Campus Of Chicago University

Chicago University has a fountain pen filling station on its campus says the Scientific American. The machine works with self-lubricating pens and with the old style that fills from a dropper—provided the user has his own dropper. The dropping of a coin and the turning of the handle releases the ink from the reservoir, and the flow flows into the right-hand well, where it can be sucked up by the pen itself or by the dropper. A slot in the upper left-hand corner of the outfit contains a wiper with which any damage done by spilling or slopping may be repaired. If one drink turns out not enough, a second penny will, of course, turn the trick.

Dairy Cows In Alberta

Alberta, according to the last government agricultural report, has 400,000 dairy cows, valued at approximately \$19,500,000. The product of these cows last year was worth \$25,000,000, or \$4,000,000 more than their own value.

Murine's Liniment For Headache

VOTE "I" for CLAUSE "D" (GOVERNMENT CONTROL) NOVEMBER 5th

The Legislature and not the Moderationists are responsible for the wording of Clause "D" and it is the Legislature that will have to interpret it. It is evident however, that it was not intended to and will not mean the return of the BAR SYSTEM. The Government and the Legislature being a democratic body depend on the people for their support and they recognize that the people of Alberta, both Prohibitionists and Moderationists, are against it and they would not dare to legislate in the face of popular opinion.

There are many ways in which the consumption of beer on licensed premises can be regulated without restoring the bar system and we may rest assured that it is one of these systems the Government will adopt rather than one which is objectionable to the people.

W. J. BARTLETT, PUBLISHER

Blainmore, Alta., Thurs., Oct. 18, 1923

On all points we may not agree with Rev. Ben Speer, who has for the past two weeks been conducting a temperance campaign in Alberta, but he shows a keen appreciation of the methods that win elections. In his published remarks to a Calgary audience one night last week he said:

"The first requisite, was to create sentiment, and the second was to translate this sentiment into votes. Three methods were used in a campaign, public meetings, the distribution of literature, and publicity by newspapers and bill boards. Public meetings he held to be the least important, saying that seldom were votes changed as a result of public meetings. They were helpful to clarify vision and to work up enthusiasm. For this purpose, he said, one large meeting was better than a number of small meetings.

"A campaign that depends on public meetings will fall flat. Literature is much more helpful and newspaper advertising the best," he said. "Bill board advertising was very helpful also. But there must be the quiet, heart to heart work among the people. It was necessary to get what sentiment there was into the ballot box and get the temperance votes recorded early. Then go after the doubtful ones."

POPPY DAY CAMPAIGN

Are our townspeople going to allow Armistice Day to pass unobserved this year while every other town is having poppies on sale? Are we assured that poppies are being procured by some organization in our town to accommodate the citizens who wish to pay their respects to our gallant soldiers who fell while fighting for the safety of our country?

No branch of the G. W. V. A. in our town, but surely we have a church body, a ladies' organization or a prominent citizen, who is willing to promote this campaign. Have we ordered a supply of these poppies from the Provincial Secretary, G.W.V.A., Calgary? If not, why not, when we regard our town as possessing that spirit of patriotism unpossessed by any other in the province?

If we have no organization in our town similar to the G. W. V. A., or willing to perform this duty, let us get together and appoint some prominent citizen to act for us in this campaign, and pray not let it be said that Blainmore was delinquent in its duty and reverence to our glorious dead. Let us not delay, otherwise we might find that all available poppies have been disposed of.

We understand that the poppies will be sold at ten cents each for the small ones and twenty-five cents for the large ones.

By wearing a poppy on November 11th, Armistice Day:

1. You honor the Dead.
2. You assist the disabled veterans and dependents by providing a means of employment in the manufacture of these poppies. They are all made in Canada by the Vetre Craft Branch of the Soldier's Civil Re-establishment.
3. You materially assist in improving the soldier legislation and the better care and treatment of the disabled, the widow and the orphans of men who served.
4. You assist these widows and orphans and disabled men who are unable to take up their own cases to have the G.W.V.A. act in their behalf.

Have we any citizens in our midst willing to pay this tribute to those men who sacrificed their all and fell in action fighting for the safety of this glorious country of ours.

As townspeople, it is our duty to see

that these poppies are brought to Blainmore.

SOLDIER SETTLEMENT BOARD

OTTAWA, Oct. 8.—Hon. J. A. Robb, minister of immigration, announces that up to noon today 7,876 openings for winter employment have been found for British harvesters. Of this number 4,255 are for farm work, 2,400 for lumbering and bush work while a limited number of places have been found in other branches of industry.

Recently it was announced by the minister that his department was co-operating with transportation companies, the Canada Colonization company, the federal and provincial employment services, boards of trades and other representative bodies in finding employment for the thousands of temporary harvest workers from the Old Land who desire to remain in Canada. As a practical contribution to this undertaking the Soldier Settlement Board organization was made available to assist these bodies in their common objective. Close co-operation was first established among all the agencies to prevent overlap of effort. The field staff of the Board has undertaken a complete canvass of employment opportunities and the above figures are furnished by the Board as the result of the first eight days canvass.

The openings for employment by districts are: Toronto, 3000, of which 2000 are bush and 1000 farm jobs; Winnipeg 338; Regina 592, Saskatoon 325; Prince Albert 650; Calgary 594; Edmonton 2,239; Vernon 129.

The canvass discloses a real demand for farm labor at \$15 to \$20 per month and board according to experience, and for help in the lumbering camps from \$40 to \$50 a month and board. Demands in other industries are limited. The canvass is continuing.

The minister desires that openings be found for every harvester who is willing to work and wishes to make his home in Canada. The result of the canvass to date indicates that the objective will be reached.

William Patterson is in Calgary this week attending the U. M. W. of A. convention as delegate from the local union.

Two bone harpoons, found under peat in East Yorkshire, England, are stated to date back from 10,000 to 12,000 years before Christ.

An involuntary petition in bankruptcy was filed in New York on Monday against the Columbia Gramophone Company. Liabilities estimated at \$20,000,000 are reported.

The Review of Reviews, founded in 1900 by the late W. T. Stend, has just been bought by Wickham Stend, former editor of the London Times. C. W. Pettifer, building contractor, of Calgary, has been awarded the contract to build an Indian school at Cardston.

A GREAT STORY YEAR

A golden sheaf of stories is in preparation for 1924 readers of The Youth's Companion. There will be stories of Western ranch life and thrilling adventure; stories of gumption in getting a job and making a success of it; stories of lively scrambles on the athletic field—football, baseball; stories of girls in school and college and working their way in the world of business; stories of the old farm folks down in Maine, told intimately by C. A. Stephens; stories of Caleb Pease's shrewdness and horse sense; stories of resourcefulness and pluck in situations of danger and extremity; stories of the sea and of the mountains—stories to please every fancy of old readers and young, for readers who love the story of character and for those who like the best story of swift action. It will be a great year in the history of The Youth's Companion.

The 52 issues of 1924 will be crowded with serial stories, short stories, editorials, poetry, facts and fun. Subscribers now and receive:

1. The Youth's Companion—52 issues in 1924.
2. All the remaining issues of 1923 for 1924. All for \$2.50.
3. Or include McCall's Magazine, the monthly authority on fashions. Both publications only \$3.00.

Clareholm government demonstration farm has produced 145 bushels doubtless it will erect a life-size statue of a collection plate.

(a) PROHIBITION—Meaning thereby a continuance and development of the present liquor legislation; that is, meaning the abolition of the sale of all liquors excepting for strictly medicinal, sacramental, manufacturing and scientific purposes.

(b) LICENSED SALE OF BEER—Meaning thereby the sale of beer in licensed hotels and other premises as provided in the proposed Temperance Act.

(c) GOVERNMENT SALE OF BEER—Meaning thereby the sale of beer by or through government vendors for consumption in private residences under government control and regulation, other liquors to be sold through doctors' prescription for medicinal purposes.

(d) GOVERNMENT SALE OF ALL LIQUORS—Meaning thereby the sale of all liquors by or through government vendors, beer to be consumed on licensed premises and in private residences; wines and spirits to be purchased in limited quantities under permit issued by the government, under governmental control and regulation.

2

3

1

DO NOT MARK YOUR PREFERENCE on this ballot with an "X".

VOTE "I" FOR CLAUSE "D" GOVERNMENT SALE AND CONTROL OF ALL LIQUOR.

VOTE "2" FOR "B" as it approves of the sale of beer on licensed premises under government control.

VOTE "3" for Clause "C" as it approves of the sale of beer for beverage purposes.

Your vote will seriously affect conditions in Alberta: it will restore respect for law and order and reduce expenses of law administration.

If "A" carries it will increase taxation to support stool pigeons and the profits from the sale of liquor for beverage purposes will continue to enrich the BOOTLEGGING FRATERNITY.

AMERICAN LABOR AGAINST DRY LAW

During a debate at Portland, Oregon, recently, Mr. S. D. D'Alessandro, of Quincy, Mass., asserted that:

"The bootleggers and the soft drink people are in favor of prohibition and so are the milk men."

After lengthy discussion the convention adopted a declaration ratifying the former attitude of the federation for such modification of the Volstead Act as will have the effect of giving the people beer and light wines, "in lieu of the flood of moonshine that now poisons those who are foolish enough to consume it."

The declaration was made to "correct an impression which has been sought to be created by the advocates of the Volstead Act that former action of the federation was not a fair statement of the attitude of affiliated or organized labor bodies," and was adopted by an overwhelming vote.

"It is our belief," said the speaker, "that the efforts at enforcement of the Volstead Act have produced results that are so far from being what was reasonably expected might follow the adoption of the 18th amendment, that we feel warranted in saying the reasonable modification now asked for, and a rational enforcement of the 18th amendment will bring relief greatly sought by the people. The open saloon has been supplanted by

the "speak-easy" and instead of licensed vendors of liquor we now have an unlimited multitude of bootleggers who dispense their vile and poisonous liquors in secrecy, to the great detriment of the health and morality of the people.

"This nefarious traffic has brought with it a great host of so-called law enforcement officers, many of whom have not hesitated to set aside or ignore all other laws in their zeal to enforce the one law in which they have an interest."

One lady remarked to us recently that: If hell wasn't hot enough for the Home Bank officials, she was going down herself and help the devil at his arduous task! Guess she won't be alone at it, as we know of several who are quite willing to render assistance.

H. W. Wood, U.F.A. leader, claims the government and others bank should go good for the Home Bank deficit. Maybe then we could take our deposits out in taxes and the other banks would loan us money without interest.

If facts were known the public might realize that for some time past we have had both government control of liquor and protection of certain bootleggers.

CREDITORS OF HOME BANK MEET DEC. 7

TORONTO, Oct. 17.—Home Bank notes to the total of \$1,700,000 are to be gathered up in the immediate future and burned. Holders of the notes of that bank are to be allowed to exchange them for other currency in the next few days.

"I am now making arrangements for the redemption of the Home Bank currency," said G. T. Clarkson, interim liquidator of the Home Bank in an interview yesterday.

Toronto, Oct. 16.—A change in the arrangements for the meetings of the shareholders and creditors of the Home Bank provides that these meetings shall be held on separate days. The creditors will meet at Massey Hall on December 6, and the shareholders meet the following day at the same place.

The order made by Mr. Justice Fisher has reached counsel engaged in the liquidation. According to its terms, besides the appointment of permanent liquidators, the order provides for the following:

(a) To approve and confirm any action taken with the approval of this court by the provincial liquidators in borrowing sufficient money to pay an immediate dividend of 25 cents on the dollars to the creditors of the bank.

(b) If such dividend be not paid by the said provisional liquidators, then to authorize the liquidators hereafter appointed to borrow sufficient monies for such purpose.

(c) As a means of dealing with all or any part of the assets of the bank to transfer the same to a realization company or companies, if and when organized, and to authorize the liquidators to carry out such a plan in respect thereof as this court shall approve.

The court has followed up the winding up order by directing that all negotiable securities, other than promissory notes, cheques and bills of exchange held by the Home Bank shall be deposited in a safety deposit vault in the Bank of Commerce and that the monies of the Home Bank also be deposited in the Canadian Bank of Commerce.

The provisional liquidators, G. T. Clarkson and I. Weldon, have given security to the extent of \$100,000, as required by the court "for the due performance of their duty as provisional liquidators."

No Newspapers for Daly
TORONTO, Oct. 16.—Herbert J. Daly, president of the Home Bank, who is ill at his home at Lake Simcoe, is resting easier today, according to his relatives, and his ultimate recovery depends entirely on complete rest and on that account he is not allowed to see the papers, nor is he made aware of current happenings.

Guess the HOME bank is the best place after all to store our pennies.

L. H. Putnam has returned from a business visit to Calgary.

UNIVERSITY OF ALBERTA DEPARTMENT OF EXTENSION

The annual report of the University of Alberta for the year ended June 30th, 1923, is to hand.

From its very beginning the University has undertaken extension work in the form of lectures by members of its staff in a number of important centres. The department of extension also inaugurated in 1913 a press bulletin, a system of travelling libraries, and a bureau of information from which literary clubs and debating societies could obtain briefs on issues of all sorts. It also organized a high school debating league, which has stimulated very remarkably the interests of the secondary schools of the province in argumentation and public speaking. A new departure in 1915 was the presentation to Edmonton and Calgary audiences of a series of discussions on the social problems of western Canadian life. The year 1916 saw the organization of leadership conferences, since that time annual events, and in 1917 a visual instruction service was added. A large library of lantern slides and moving picture films has been developed and with it the inauguration of tutorial classes in economics.

During the year 398 extension lectures were given, with an approximate of travelling libraries were made made attendance of 45,662. Exchanged 880 times in 296 communities. For the twelve months 6543 volumes were circulated from the Open shelf library. In the period covered by the report, 1631 lantern slide sets were shown 2800 times to audiences aggregating 155,700, and lanterns were loaned for lectures on no less than 123 occasions.

Ten short courses for soldier settlers' wives were arranged for in co-operation with the Soldier Settlement Board.

During the year 354 persons were instructed in First Aid and Home Nursing and certificates were issued in due course. A noteworthy feature of this work is that two championships in first aid have been won by an Alberta team, the First Aid team of the International Coal and Coke Company, of Coleman, capturing the Dominion championship for miners' first aid teams, and also the open championship of Canada. Two magnificent trophies—the Coderre cup, representing the miners' championship, and the Montizambert trophy, representing the open championship, are now held in Alberta. A public meeting in honor of the winning team was held at Coleman recently, at which the honorary-treasurer of the University on behalf of the provincial council, made an address and presented the trophies.

COWLEY HAPPENINGS

Inspector Morgan has been visiting schools in this district this week.

Miss McWilliams was a business visitor to Blairmore on Saturday.

Mr. Comfort, of Creston, B.C., is a visitor in these parts at present.

We understand that the Banff orchestra will hold a dance here on November 10th.

M. A. Murphy and H. D. McMillan attended the Chapter in Pincher Creek on Tuesday evening.

Mrs. Connor, accompanied by her two children, has gone to Wrentham to visit relatives.

Around forty men are now working on the South Fork railway bridge. Another dining car has been taken there for their accommodation.

Mrs. M. A. Murphy, accompanied by her daughter, Miss Muriel, attended the funeral of her niece, little Helen Blackburn, at Fishburne on Tuesday.

Last Wednesday evening a well attended dance was held in the Cowley hall, in aid of the skating rink. The Banff orchestra was in attendance. Around forty dollars was cleared.

Mrs. James Leigh and daughter Verdon have returned from an extended visit to the coast and other points.

Miss Doris Ryan, of Revelstoke, accompanied them to Cowley.

Miss Edith Baines, of Lethbridge, is spending a few weeks with her brother Ed and sister Gladys here. Lionel Peel, of the Union Bank staff, Blackie, spent Sunday with his parents at the North Fork.

A very interesting meeting of the Ladies' Aid was held at the home of Mrs. James Irwin on Thursday. Considerable business was transacted, including the buying of a new stove for the church and sending twenty dollars to the Home Mission board.

BLAIRMORE SCHOOL REPORT FOR SEPTEMBER MONTH

D. M. J. Conway, principal.

J. S. Kirkham, of Lethbridge, was in town last week end, accompanied by R. F. Barnes, of Macleod.

A prohibitionist can always quote the amount of liquor consumed for several years back, but he will never mention the difference in the cost of policing the country during prohibition.

Speaking of legislating to our stomachs, a paper remarks that for that matter, stomachs could be benefited by closing the port of entry when the monthly quota has been exhausted.

Enterprise, 1923.—Society. Note of Ten Years Ago.—The deputy attorney-general of the province of Alberta was the guest last week at Waterton Lake of Mr. and Mrs. Mark Rogers.

And now we learn that the Home Bank loaned one company \$4,500,000! Maybe it was the Home Breyers Runrunners, Inc.

And that poor president of the defunct bank. He's awful sick, poor chap and not even allowed to see a newspaper. We'll have to put him on our list so he can get something to cheer him up when he gets over it. He'd be terrible if he happens to pass out without putting anyone wise to how he covered it up. Maybe we could work the same gag on our wives for a dollar or two once in a while with his ability.

Here and There

A grant of \$25,700 to the Salvation Army to aid Canadian emigration work in Great Britain has been authorized by a Canadian Order in Council.

According to information received by the Canadian Pacific Railway at Winnipeg, sixty-three bushels of wheat to the acre has been harvested on the farm of T. M. Ballantyne, three miles north of Lacombe, Alberta. The wheat graded No. 1 and weighed 64 pounds to the bushel.

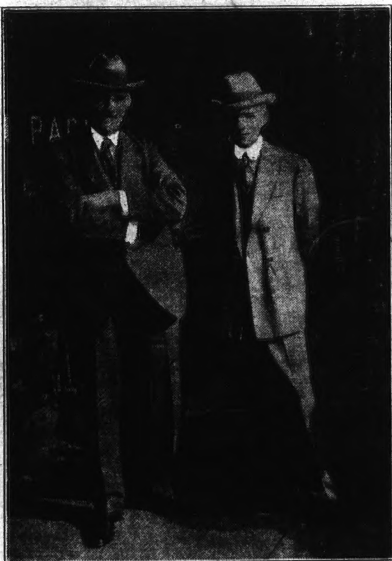

Weighing 1,170 pounds, a steer, said to be the largest ever recorded in Winnipeg, arrived at the union stockyards from Winnipeg, Alberta. It was sold for \$350, the highest selling price of any steer in Winnipeg since the war.

The Canadian Pacific S.S. "Brunton," which arrived in Liverpool on September 5th, put up what is considered to be a record in the speedy discharge of cargo when she sailed the following day, Sept. 6th, at 7 p.m., having discharged over 7,000 tons of cargo.

It is announced that the Canadian Pacific Railway will increase the size of its irrigation headgates at Kimball, in southern Alberta, by 50 per cent in anticipation of an increase in area of 40,000 acres in the Lethbridge district. Water will be turned into the ditches of the Lethbridge Northern project; it is expected, some time this fall.

Buffalo steak will be abundant in Canada this fall. A herd of 2,000 surplus Buffalo wandering on the range in the National Park at Watnwright will be slaughtered by an Order-in-Council, and the meat and skins sold. For several years the Government has paid special attention to the conservation of the buffalo and the work has been so successful that the National Parks are now overstocked.

For U.S. President?

When Henry Ford was asked by Montreal reporters if he would run for President of the United States, he said, "I am not running for or against anything," but when asked if he would accept nomination if proffered, the motor car king replied: "No one knows what they will do from one day to another." Mr. Ford is here seen in conversation with Mr. Grant Hall, vice-president of the Canadian Pacific Railway, at Windsor Station, Montreal.

Science May Prolong Life

Said that Principle of Old Age and Death Not Inherent to Cell Life

Dr. Alexis Carrel reported to the French Academy of Medicine in 1912 that he had kept an animal heart, isolated from the body alive and beating for several months. The members were skeptical and many refused to believe the report. The years have passed and the heart is still alive and beating. The cells are healthy, show no signs of disease, decay, death. They seem to contain the potency of immortality.

If the heart of a dying organism can live indefinitely isolated from the body, under proper protective conditions, it seems to indicate that the principle of old age and death is not inherent to the cell life, but that these conditions are introduced from without. "No tree has ever died of any internal condition, but always because assailed by some destructive force outside of itself. The same is apparently true of the human body. When we become older than we now are and learn how to protect ourselves from all ravages from without and to obey the laws of life, physical, mental and spiritual, we will live infinitely more effective lives than shall be extended into the centuries.

The race has grown up through ages of experience with the inbred racial expectation of death. The law of the subconscious mind is suggestion. It is the body building power, the superintending which accepts without question the orders of impressions handed down by the conscious mind and puts them into execution. We have been handed down the suggestion, "You are getting old and now, the body might as well slow up, it is at most time to die." The body has been conditioned by these suggestions, and broken down by wrong living, improper food, insufficient exercise, too little oxygen in the lungs, not enough drinking water, and a hundred other forms of abuse, it has fulfilled the racial expectation.

Now science is showing that there is nothing inherent in the body which justifies old age and death. The death by fallacy of "Three score years and ten" is being exploded. Modern methods of hygiene have greatly increased the span of the average life.

Care of Poultry

Proper Methods of Feeding and Handling for Egg Laying

The following shows the plan of handling and feeding the birds at the Agassiz, B.C., Dominion Experimental Farm, during the year ending October 30, 1922. The average 150-week Rocks averaged 232 per bird. Straw is used for litter and the scratch grains are fed in the litter. The grain mixture consists of equal parts cracked corn, whole wheat and whole oats, and is fed twice a day, care being taken not to have too much grain in the litter at any time. The dry mash is composed of bran 100 parts, shorts 100, crushed oats 100, corn meal 100, beef scrap 50, and charcoal 25. Being fed from a well self-feeding hopper, the mash is kept before the birds at all times. Grit and oyster-shell are similarly supplied from a small hopper of two compartments, one containing oyster shell, the other containing grit. Green feed is provided in the form of kale, chard, cut clover, or mangels. Skim milk is fed daily, while water is before the birds practically all the time. Inside and near the front door of each pen a box of earth (dust bath) is placed.

Lacked the Equipment

Schoolhouse Commissioner Thomas Glynn says that a foreman on a schoolhouse job recently needed a plasterer. One was sent up from the union headquarters. He looked the job over carefully and then told the foreman that he guessed he would not take the job.

"What's the matter?" queried the foreman.

"There is no place to park my car," was the reply of the plasterer.

"If that's the reason, you couldn't work here anyway, because we only hire plasterers who employ their own chauffeurs," retorted the foreman.—Boston Post.

Travels of a Mail Clerk

During the thirty-six years that Joseph C. Beck was a clerk in the railway mail service between Chicago and Cleveland, on the New York Central, he travelled 2,997,000 miles, a distance equivalent to 72 1/2 times around the earth. He participated in several wrecks, but always escaped injury, and now dreams it time to seek retirement.

Lies the custom of the "Ancient Greeks to plant shallow half appleseed round their graves, as the seeds of these plants were supposed to nourish the dead.

Corn Growing on the Prairies

May Soon See Corn Ranking With Other Crops That Have Made Western Canada Famous

The western provinces are only starting out on their careers as corn growing areas. Agriculture and industrial progress in Canada. This may be seen as the first of the real serious attention to the commercial production of corn and those to follow will undoubtedly see corn ranking with other crops which have made Western Canada famous.

The first real profession of faith in the future of Western Canada as a corn growing area was made in Southern Alberta when, last fall, the Alberta Corn Growers' Association was formed. Then, to prove that successful propagation was not limited to the southern area of the prairie, Prince Albert, in Saskatchewan, several hundred miles north, held the first corn show to take place in that province, at which locally grown corn was exhibited said to be the equal of that grown anywhere. Now the Saskatchewan Corn Growers' Association has been organized and the first provincial show will be held in Maple Creek in November.

The Alberta association has indeed been active in encouraging the planting of further acreage in every way. From Calgary it has distributed two carloads of corn seed, this going from the international boundary to Peace River and outside the province as far as Victoria in the west and the East. Manitoba boundary in the east. The association now has 450 farmers growing corn, who should account for the planting of 27,000 acres of this crop in Alberta this year.

The western corn growing in Western Canada is of very recent date, but has been characterized by startling rapidity, and the development of the last five years has been little short of phenomenal. Manitoba, which in 1917 raised 47,000 bushels of corn, grew 216,000 bushels in 1922, an increase of over 250 per cent. for the period. Saskatchewan in the same time increased her production from 31,000 bushels to 157,000 bushels, or by nearly 500 per cent. Alberta increased her yield from 4,000 bushels in 1917 to 82,000 bushels in 1922, an incredible increase of 1,915 per cent.

Manitoba last year achieved an average production of 7.50 tons of food per acre to the acre, which was worth then \$6.00 per ton, or for the total provincial crop \$1,296,000. Saskatchewan's average was 4.85 tons to the acre with an average value of \$7.00 per ton, or for the total provincial crop \$1,209,000. Alberta had an average of 5.25 tons to the acre, each ton being worth \$5.00, making the total provincial crop worth \$1,100,000. In all cases the value of an acre of corn was practically double the value of an acre of wheat.

Who's to Grow the Next Newspaper Crop?

By John W. Daffoe, Managing Editor, Manitoba Free Press, and Director, Canadian Forestry Association

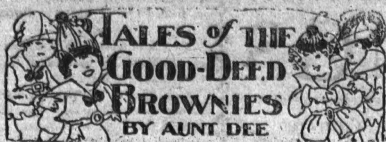

The question, "Who's to grow the next newspaper crop?" is not as speculative as it sounds. More than thirty million newspapers are run off the presses of the United States and Canada every weekday. Their raw material is really a flattened-out log of spruce and balsam. We forget sometimes that newspaper is not a synthetic product. Ninety per cent. of every ton is fibre from wooden logs and logs are the harvest of a forest tract.

If the rapid destruction of our forests by human-caused fires proceeds at the present pace of four thousand conflagrations a year, it takes no prophet to foresee a newspaper industry driven into a corner by scarce and costly newsprint, with no hope of relief until new forests have been allowed to grow.

I think the time has arrived when the problem of forest conservation must be taken aboard by the newspaper publishers of Canada. Pulpwood is growing alarmingly scarce and prices will be increasingly gauged by the factors of forest supply and accessibility. We have left forest conservation to the mercies of lumbermen and politically-minded governments, heedless of the fact that the lumberman operates for a living, and it is doubtful if he has any more moral or patriotic responsibility for the state of the forests than a publisher. On the other hand the government formulates forest policies as public opinion drives, and public opinion to a greater or less degree, takes its mould from newspaper information.

The newspaper publishers of Canada today are, if they choose to be the principal actors in the new campaign to stop forest vandalism and place the timber resources on a basis of permanent production.

According to a recent estimate, one half of the cooking done in the United States is done with gas.

Chuckles Takes a Trip on His Bicycle.

After breakfast on the day the Cobler gave Chuckles a lesson on riding his bicycle, all the Good-Deed Brownies came out to watch him ride. Queen Loveliness was on her throne and the others grouped themselves around it, leaving an open space in the centre of the field. During his lesson Chuckles had taken several tumbles, so that his little suit was soiled with mud, for it had rained the night before. He brushed it as best he could before breakfast, but Queen Loveliness said when she saw it that he had better give it to the Brownie tailors to be cleaned and wear his best suit for that day.

He was a handsome Brownie, I can tell you, when he mounted his bicycle in his fresh, best clothes. He rode around the field several times and jumped off and on to show that he really could ride. Queen Loveliness said:

"Good work, Chuckles. You know how to ride very well. I think it was very kind of the Cobler to give you a lesson. Now that you can ride I am going to ask you to do something for me. I have received a note from the head camp, saying that a mile from here down the main road the Cruel Brownies are gathering to make war on this camp. I want to make certain that this is true before I send any of my subjects out to battle. If I sent one of you on your wings, the Cruel Brownies would be sure to see you, for they know you fly and will be looking up in the air for you. If I sent one of my scouts on foot he might be captured. But if you will ride your bicycle the enemy will never think you might come that way, and if they do see you, you could ride away much faster than they could run, and so there will be no danger of your being captured."

You may imagine how excited Chuckles was. Here was another

chance for him to prove his love for these kind, Good-Deed Brownies who had taken him into their camp and made a brother of him when he had been a disagreeable Cruel Brownie. His magic wand had done splendid work on his first day by making Dick chuckle out loud, and now he hoped his bicycle would do as much help on his first trial.

The other Brownies waited around helping him get ready for the trip. The Brownie cooks brought him a little basket packed with lunch, which

they fastened under the leather seat of the bicycle, and soon he was all ready to start. All the Brownies in the camp walked to the edge of the field with him, and as he sped down the road they cheered him on his way.

Young At a Hundred

Doctor Says Glandular Treatment Prevents Old Age

One hundred years will eventually be regarded as an infant when glandular treatment becomes better known. Dr. William Bell, Chicago, declared on his return from abroad after three months study of that science.

"Men can live to a great age," he said. "Our present knowledge of cellular activity and glandular function has brought to our understanding with accuracy never before attained the causes of premature old age, generally, epilepsy, high blood pressure and disease in general."

Large Enrollment at Universities

Counting all resident students Columbia University leads with a total enrollment of 27,329. California is second with 20,923. Next in order are the University of Pennsylvania with 14,534, College of the City of New York with 14,067, and New York University with 12,236.

Wages of Farm Wife

If you had to pay the farm wife a salary based on her actual worth, she could command at least \$2,800 a year, as seamstress, laundress, cook, nurse, assistant hired man, general manager, and several other tasks," declares Professor Baby Green Smith, of Cornell University.

Civil Engineer a Plasterer

Could Make More Money Than If He Became a Professor

A newspaper woman who has been writing up the steel mills remarked on the number of workers who came in their automobiles. A dispatch from the zinc mines in Illinois where there has been a strike, spoke of most of the strikers coming back to work in automobiles. Accounts of Herrick last year remarked on the large parking space set aside for the automobiles of the miners. And now we learn from Evanston, Ill., seat of a great university, that wages of more than \$100 a week paid to plasterers are diverting students from the Gospel ministry, and a civil engineer with many degrees refused professorship because he could make so much more money plastering. Philadelphia Record.

Tourists at Banff Park

The tourist traffic through Banff Park for the month of August exceeded all previous records, a total of 5,652 autos passing through the East Gate and 1,945 from the Windermere Road on the west. A total of 7,187 cars have visited the new auto park in Banff since its official opening on June 14th.

In Northern India the African marigold is held as a sacred flower.

Story of Determination

How a Crippled Child Became a Successful Business Man in Spite of Physical Disabilities

Nearly forty years ago a Chicago newsboy, whose name was Mike Dowling, went out to the state of Minnesota to herd cattle. He was only fourteen. On an errand to a distant farm he was caught in a blizzard and was frozen so badly that he lost both feet and both his hands.

Before he was fifteen the lad found himself penniless. He had no one to help him, for he was an orphan. With little education he seemed helpless, but there was a strong, brave heart in the lad's body.

When he was sent to the charity board of his county, he told the commissioners that if they would give him a year's school and supply such help as could be made for him, he would earn his own living.

How he kept his promise is told by Earl Christmas, in the Dearborn Independent:

"In that year at Carleton, Dowling dug in with all his might. He taught that if in that year he could learn how to study, he might go on alone. When the year was over, he got a place teaching a country school. He was on his way to independence.

"He taught a country school for seven years, becoming later a petty superintendent of schools. He painted fences and ran a skating rink during the vacations. He did all kinds of jobs. He ran a weekly newspaper. In time he got into the real estate business, and eventually became the president of a bank at Olivia, Minnesota.

"He was speaker of the Minnesota House of Representatives, and at one time was urged as a candidate for Governor. He was President of the Minnesota Bankers' Association, and was active in organizing the Yellowstone Trail Association.

"Dowling did everything that other men do. He drove his own automobile on long, cross-country trips. He danced. He went hunting. He big game. He had a fine home, with a wife and three children, and amassed enough property to provide comfortably for the future. He had nearly all the good things of life that come to any successful man."

If that had been all, the story of Mike Dowling might not have been told here, and the man would not have been held dear by his countrymen.

"The once crippled boy never lost the opportunity of helping other boys and men who, because they were crippled, were in danger of losing heart. He helped to support the Minnesota Hospital for Crippled Children, sent his own boys to school.—Victoria Daily Colonist.

Old Battlefields Vanishing

Major-General MacBrien has returned to London on conclusion of his tour of the Canadian battlefields in France. He was much impressed by the rapid construction, both in France and Belgium and said that very little of the Canadian battlefields, except Vimy Ridge, remained in the old condition. General MacBrien considers the site for the war memorial at St. Julien and the sites for the other memorials were very well chosen.

Sanitation For Poultry

Many cities have a low death rate because of the sanitary requirements, good water supply and common sense of their citizens. A poultry farm is a small chicken city filled with birds of a low order of intelligence. The owner is responsible for the sanitation and good water supply. He must furnish all of the common sense used in the management.

"YOUR TEETH"

THE HUMAN JAWS

By Dr. F. W. McLean, M.D., D.D.S., PITTSBURGH, Pa.

Every bone in the body is fashioned to stand the particular strain that comes to its own zone.

The shape and strength and blood supply of each bone is just right, for that bone, just as a well balanced piece of machinery must have every part fitted to do its work and must have every part strong enough to last without too much weight or bulk.

The bones of the jaw have as a protection from the pressure of chewing only a very thin membrane composed of peritoneum and mucosa which we call the mucoperiosteum.

The teeth and the sockets, properly called alveoli, which are simply holes in the bone that fit the roots of the teeth.

There is a membrane that lines the socket and at the same time covers the tooth root. This is a dense fibrous membrane which protects and nourishes both the bony surface and the surface of the tooth root. The jaws have transmitted to them the pressure that is made upon the teeth in chewing. The only thing that acts as a shock absorber is this one thin membrane that lines the socket. As much as two hundred and fifty pounds pressure to the square inch is frequently exerted upon the teeth. Whenever a tooth is lost the work that the other teeth do is increased so that the pressure of chewing is no longer distributed over the whole jaw, but is confined to those spots where the teeth remain.

Is it any wonder that the bones of the jaw sometimes become irritated from over-work and so inflamed from abscessed teeth that considerable portions of the bone itself may be lost?

If the teeth are kept in a state of health the bones of the jaw will usually remain strong and vigorous as nature intended they should be.

Why Mixed Farming Pays

A Sure Profit in Winter Feeding of Beef Cattle

While no beef cattle are kept for breeding at the Northern, Saskatchewan, Dominion Experimental Station, for the past seven or eight years, steers have been purchased in the fall for winter feeding, and in every year when sold in the spring, exceeding 1921, a profit has been realized, after allowing the higher market value for the feed consumed. Twice the cattle were purchased directly from the farmers and at three times from dealers. In every case the cattle were from districts where oats and barley yield well and, in most cases, where prairie hay may be had at much lower cost than at Rosthern. If, claims the Superintendent, feeding under such circumstances can be done profitably at the Northern Experimental Station, how much greater would be its advantage to the livestock grower. Feeding cattle in winter, continues the report, increases employment when wages are low; dispenses of rough feed, such as old straw, barley straw and screenings not otherwise readily marketable; utilizes wheat straw as bedding, returns fertilizer to the land, and turns over to a good profit everything used in the raising of the cattle, as well as the cattle themselves.

An experiment conducted at the station in 1921-22 to compare the feed value of turnips and ensilage indicated that turnips and silage made have feeding value nearly equal if fed in conjunction with a full meal ration.

Passenger Asks "How"

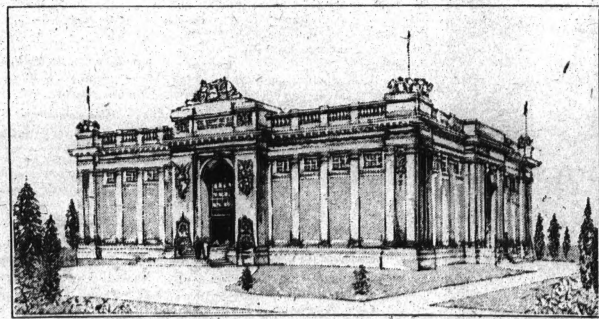

Pullman plans for a shift five feet and two inches long and ten inches wide, in place of the much condemned hammock, in their sleeping berths may be of advantage in neatly laying one's clothes away for the night, but if any of the present limited space is to be given up for shelf room, how is a non-acrobatic mortal ever going to get the clothes off so that they can be neatly laid away?—Philadelphia Bulletin.

Cruelty to Frogs

On the popular "Six Watered Frogs, reptiles and fish are added to the animals in England protected by the "cruelty to animals" bill. Sir Walter wanted to put in "insects," but agreed to drop it out when it was pointed out that it would be difficult to convict when a man was cruel to a flea.

B.C. Lumbering Operations

One of the largest lumbering operations in British Columbia is about to be undertaken by the Woodhouse interests. A mill, it is estimated, will cost \$1,600,000, will be operated at Chemainus, on Vancouver Island, in that locality the big American timber and pulp corporations hold thousands of acres of fine timber.

Canadian National Building at the British Empire Exhibition

An imposing building is to be erected by the Canadian National Railways at the British Empire Exhibition. Contracts have been placed and the construction will be commenced immediately. The building is of a classic style of architecture of the Canadian Government building at the Exhibition. The Canadian National building is on a site immediately next to the Canadian Government building and in one of the most prominent sections of the exhibition grounds. The building is 90 ft. x 110 ft., and in addition to a very comprehensive display of exhibits, including agriculture, horticulture, mining, industrial and tourist features, there will be a cinematograph hall accommodating 250 people, in which daily shows will be given, where films that are of special interest this year will be projected, depicting the attractions of Canada. This building will be one of the handsomest structures in the group of the buildings at the British Empire Exhibition. The architect is Mr. Eustache G. Bird, A.R.C.A., of Toronto, Cana.

STILL NO EXPLANATION

OF McDONALD CHARGES

Parties interested in the forthcoming referendum are anxious to know why an explanation of the charges against the department of the attorney-general, early in the year by Mr. J. W. McDonald, K.C., of the present Liquor Act, has never been given. Following repeated requests for a reproduction of these charges, we have decided to allow them space in this issue. The Enterprise.

January 18th, 1923.
Honorable J. E. Brownlee, K.C.,
Attorney-General,
Edmonton, Alberta.

Dear Sir:
Re Rex vs. Matheson
Rex vs. Belecley
Rex vs. Walker

I have your letter of the 9th inst in which you say:

"I have nothing to add to my previous letter, which apparently you found unsatisfactory."

I most certainly did find it unsatisfactory, but no more so than your letter of the 10th inst, in which you do not even attempt to explain some of the facts set out in my letter of the 10th inst.

You will welcome an opportunity of stating your position at the coming session of the legislature and of dealing with my criticisms. Feeling confident that such an opportunity will present itself, I wish for the purpose of being concise and clear to briefly summarize the facts in connection with the case and to ask for certain explanations in connection therewith.

I might say, however, that unless you can give some better explanation of those facts than you have just given you can scarcely with reason hope that your explanation will be accepted.

The salient facts are:
1. On September 28, 1922, two cars were detained by Constable Lawson, of the A.P. police, and Constable Houghton, a municipal police officer, at Coleman, where they were carrying liquor. The seizure was made at Coleman.

The cars were in possession of and driven by Harry Walker and Max Belecley.

Harry Walker produced a paper which Constables Lawson and Houghton referred to as "an alleged customs export paper." This paper shows that the two cars contained 70 cases of Scotch whisky and one keg of malt; and that they were titled to Albert Powell, Harvey, Mont., U.S.A., from the Fernie Liquor Exporters, Fernie, B.C., "for automobile for exportation to U.S.A. via highway direct."

The liquor was taken into the A.P. detachment at Coleman.

5. An information was laid by Constable Houghton against Max Belecley under Section 24 of the Alberta Liquor Act.

6. A similar information was laid against Harry Walker.

7. The papers in connection with the case passed into the hands of Mrs. Lawson after Constable Lawson's death on the 21st of September, 1922.

8. On the 14th of September, 1923, Inspector Bavin, of Lethbridge, wrote me a letter in the matter, from which I quote the following:

(a) "I have the honor to advise you that the two automobiles driven by the above named (Walker and Belecley) and carrying liquor in each car were held up by a member of this detachment at Coleman, and the liquor confiscated."

(b) "I am now in receipt of instructions from the Commissioner stating that Mr. Pople, who is acting as legal adviser to the Force, suggests that these parties have committed offences, one under the Liquor Act as charged, and a further charge under the Canada Temperance Act."

(c) "These two accused are driving cars and are working in the employ of M. C. Rogers, who is running the King's Exporting house at Lethbridge and the Fernie Exporters at Fernie. The shipments were labelled and each package was labelled and covered by a Customs Export Entry, which had not been entered through the Customs and would not be until it arrived at the line."

(d) "I am instructed to employ you to look for the prosecution."

(e) "There is also a subsequent charge in the load recently picked up by Sergeant Caswell which is pending. This is the same outfit."

9. On the 14th of September, 1923, Constable Houghton, of Coleman, wrote me a letter from which I quote the following:

"I am in receipt of a communication from the Attorney-General advising me that you will be handling the case re Max Belecley, Canada Temperance Act."

10. Both of the cases were subsequently handed over to Constable Lawson, so that the police charge was in the hands of the A. P. police.

11. On the 15th of September, after the passing of correspondence and telephone conversations between Constable Lawson and myself, I sent him a draft copy of charge to be laid.

12. On the 15th of September, 1923, Constable Lawson, of Coleman, wrote me a letter from which I quote the following:

"I am in receipt of a communication from the Attorney-General advising me that you will be handling the case re Max Belecley, Canada Temperance Act."

13. On the 15th of September, 1923, Constable Lawson, of Coleman, wrote me a letter from which I quote the following:

"I am in receipt of a communication from the Attorney-General advising me that you will be handling the case re Max Belecley, Canada Temperance Act."

14. On the 15th of September, 1923, Constable Lawson, of Coleman, wrote me a letter from which I quote the following:

"I am in receipt of a communication from the Attorney-General advising me that you will be handling the case re Max Belecley, Canada Temperance Act."

15. On the 15th of September, 1923, Constable Lawson, of Coleman, wrote me a letter from which I quote the following:

"I am in receipt of a communication from the Attorney-General advising me that you will be handling the case re Max Belecley, Canada Temperance Act."

16. On the 15th of September, 1923, Constable Lawson, of Coleman, wrote me a letter from which I quote the following:

"I am in receipt of a communication from the Attorney-General advising me that you will be handling the case re Max Belecley, Canada Temperance Act."

17. On the 15th of September, 1923, Constable Lawson, of Coleman, wrote me a letter from which I quote the following:

"I am in receipt of a communication from the Attorney-General advising me that you will be handling the case re Max Belecley, Canada Temperance Act."

18. On the 15th of September, 1923, Constable Lawson, of Coleman, wrote me a letter from which I quote the following:

"I am in receipt of a communication from the Attorney-General advising me that you will be handling the case re Max Belecley, Canada Temperance Act."

19. On the 15th of September, 1923, Constable Lawson, of Coleman, wrote me a letter from which I quote the following:

"I am in receipt of a communication from the Attorney-General advising me that you will be handling the case re Max Belecley, Canada Temperance Act."

20. On the 15th of September, 1923, Constable Lawson, of Coleman, wrote me a letter from which I quote the following:

"I am in receipt of a communication from the Attorney-General advising me that you will be handling the case re Max Belecley, Canada Temperance Act."

under the Canada Temperance Act, the charges under the Alberta Liquor Act having already been laid.

12. The cases were to come on at Coleman next morning, but were adjourned, owing to different reasons, one of which was that Max Belecley's brother was ill, and that he died the last of such adjournments being to October 6th, 1922.

13. Constable Lawson was killed on September 21st, 1922.

14. On the evening of Sept. 22nd, at the A. P. P. barracks at Frankston, Alberta, Assistant Superintendent Nicholson came to me about the charges and asked if they were going on. I replied that so far as I was concerned the cases would go on, was strengthened in this decision by the fact that "evidence had been brought to bear on me to induce me to 'lie down' on the prosecution."

The conversation between Assistant Superintendent Nicholson and myself closed it was understood that the cases would go on regularly.

15. On the morning of the 3rd of October, 1922, the last day of the Piccadilly preliminary enquiry, Assistant Superintendent Nicholson again came to me saying that he had authority to go before the presiding magistrate without counsel and have the cases referred to the name of M. C. Rogers and that Rogers had agreed to plead guilty. He represented to me that expense to the department would be saved if they did not have to pay a counsel fee. At this time nothing was said about the subsequent load picked up by Sgt. Caswell and referred to in 8-c.

16. By special arrangement the magistrate sat that night October 3, (although the cases had been adjourned to October 5th) and the cases were disposed of.

17. I subsequently learned that the Alberta Liquor Act charges were the only ones proceeded with; that a fine of \$150.00 (less than the maximum) was imposed; that the liquor was not to be used for anything but for the purpose of the case; that the cases were proceeded with under the Canada Temperance Act; that the liquor was handed over to M. C. Rogers and police were apparently not to be involved. (Presumably the U. S. boundary.)

18. The charge against Walker was apparently not dealt with at all, but a charge was laid against Rogers & Co., Ltd. There is no company in Coleman which carries liquor, and this was apparently the company intended to be charged.

19. I wrote a letter under date of November 20th, 1922, to the Deputy Attorney-General, asking for an explanation of the facts in 17.

20. On the 24th November, 1922, the Deputy Attorney-General wrote me a letter from which I quote the following:

"I wrote to the Superintendent on the 29th November, asking him for an explanation."

21. I received a letter from the Superintendent on the 1st of December, 1922, in which he intimated that the cases were to be referred to the U. S. boundary, where the M. C. Rogers Co. should be charged in this case as they owned the liquor to which Rogers agreed to plead guilty. The liquor was to be handed back to him and sent under escort to the boundary, he at the same time agreeing to stop bringing any more liquor by road through the Crows' Nest Pass. Superintendent Nicholson was in charge of this arrangement.

22. I received a letter from the Superintendent on the 14th December, 1922, in which he intimated that the cases were to be referred to the U. S. boundary, where the M. C. Rogers Co. should be charged in this case as they owned the liquor to which Rogers agreed to plead guilty. The liquor was to be handed back to him and sent under escort to the boundary, he at the same time agreeing to stop bringing any more liquor by road through the Crows' Nest Pass. Superintendent Nicholson was in charge of this arrangement.

23. I received a letter from the Superintendent on the 14th December, 1922, in which he intimated that the cases were to be referred to the U. S. boundary, where the M. C. Rogers Co. should be charged in this case as they owned the liquor to which Rogers agreed to plead guilty. The liquor was to be handed back to him and sent under escort to the boundary, he at the same time agreeing to stop bringing any more liquor by road through the Crows' Nest Pass. Superintendent Nicholson was in charge of this arrangement.

24. The load of liquor referred to in Inspector Bavin's letter to me (8-c) was a load taken by Sgt. Caswell, of Macleod, about three miles west of Macleod. It had been driven by one Matheson and was up set, Matheson being injured.

25. When Caswell saw Matheson, he was in the liquor house, and was purporting to be a customs export entry and shipping bill.

26. The liquor was a load of 40 cases of Scotch whisky, containing 80 gallons valued at \$1,650.00, and was in the hands of M. C. Rogers, Ltd., of Great Falls, Montana, consigned care of J. Wilson.

27. As Caswell came to my office and had copies of these papers made, doing so because he said he had been offered \$500.00 for them.

28. This case was not proceeded with at all and the liquor was not sent to the U. S. boundary, but was in the hands of M. C. Rogers. It had been in the A. P. P. detachment here for some time.

29. The case of Rogers' car with Rogers driving it took the police from Lethbridge to Frank on the night of Sept. 21st, 1922, and it was with his car with himself at the wheel which took Piccadilly back to Lethbridge on the evening of the 22nd of September.

30. What right do you think you had to supersede the case in the determination of the questions at issue? Supt. Bryan knew perfectly well that I had a right to retain the case in the matter, and Asst. Supt. Nicholson.

31. The case of Rogers' car with Rogers driving it took the police from Lethbridge to Frank on the night of Sept. 21st, 1922, and it was with his car with himself at the wheel which took Piccadilly back to Lethbridge on the evening of the 22nd of September.

32. The case of Rogers' car with Rogers driving it took the police from Lethbridge to Frank on the night of Sept. 21st, 1922, and it was with his car with himself at the wheel which took Piccadilly back to Lethbridge on the evening of the 22nd of September.

33. The case of Rogers' car with Rogers driving it took the police from Lethbridge to Frank on the night of Sept. 21st, 1922, and it was with his car with himself at the wheel which took Piccadilly back to Lethbridge on the evening of the 22nd of September.

34. The case of Rogers' car with Rogers driving it took the police from Lethbridge to Frank on the night of Sept. 21st, 1922, and it was with his car with himself at the wheel which took Piccadilly back to Lethbridge on the evening of the 22nd of September.

35. The case of Rogers' car with Rogers driving it took the police from Lethbridge to Frank on the night of Sept. 21st, 1922, and it was with his car with himself at the wheel which took Piccadilly back to Lethbridge on the evening of the 22nd of September.

36. The case of Rogers' car with Rogers driving it took the police from Lethbridge to Frank on the night of Sept. 21st, 1922, and it was with his car with himself at the wheel which took Piccadilly back to Lethbridge on the evening of the 22nd of September.

37. The case of Rogers' car with Rogers driving it took the police from Lethbridge to Frank on the night of Sept. 21st, 1922, and it was with his car with himself at the wheel which took Piccadilly back to Lethbridge on the evening of the 22nd of September.

38. The case of Rogers' car with Rogers driving it took the police from Lethbridge to Frank on the night of Sept. 21st, 1922, and it was with his car with himself at the wheel which took Piccadilly back to Lethbridge on the evening of the 22nd of September.

39. The case of Rogers' car with Rogers driving it took the police from Lethbridge to Frank on the night of Sept. 21st, 1922, and it was with his car with himself at the wheel which took Piccadilly back to Lethbridge on the evening of the 22nd of September.

40. The case of Rogers' car with Rogers driving it took the police from Lethbridge to Frank on the night of Sept. 21st, 1922, and it was with his car with himself at the wheel which took Piccadilly back to Lethbridge on the evening of the 22nd of September.

41. The case of Rogers' car with Rogers driving it took the police from Lethbridge to Frank on the night of Sept. 21st, 1922, and it was with his car with himself at the wheel which took Piccadilly back to Lethbridge on the evening of the 22nd of September.

42. The case of Rogers' car with Rogers driving it took the police from Lethbridge to Frank on the night of Sept. 21st, 1922, and it was with his car with himself at the wheel which took Piccadilly back to Lethbridge on the evening of the 22nd of September.

43. The case of Rogers' car with Rogers driving it took the police from Lethbridge to Frank on the night of Sept. 21st, 1922, and it was with his car with himself at the wheel which took Piccadilly back to Lethbridge on the evening of the 22nd of September.

44. The case of Rogers' car with Rogers driving it took the police from Lethbridge to Frank on the night of Sept. 21st, 1922, and it was with his car with himself at the wheel which took Piccadilly back to Lethbridge on the evening of the 22nd of September.

Discharge Of Workers In The Ruhr Valley Is Causing Great Distress

Düsseldorf.—Demonstrations by the unemployed, some of a very threatening nature, have already begun in the Ruhr in consequence of the discharge of thousands of workers by the metal industries. The occupational authorities predict rioting and plundering unless something is done immediately to relieve the plight of the workers. Demonstrations occurred at Düsseldorf and every large town in the Ruhr.

It is feared the situation of the workers and their families will be desperate before the month is out. The authorities are powerless to offer relief, as the Berlin Government has decided that, beginning October 17, all responsibility for unemployment in the Ruhr will be transferred to the local municipal authorities in the occupied area. The 2,000,000,000 marks which is the weekly dole to the head of a family, is barely sufficient to buy bread for one adult for seven days.

The municipal authorities can do nothing, because the cities have no income, and the metallurgical plants, which are laying off their workers, refuse to be responsible while they have no orders for their products. As for organized charity, it is practically nonexistent, because there are no funds for the support of the charitable institutions.

Have Faith In West

London.—Attention has been drawn by the Daily Mail to Canada's new slogan, "Have Faith in the West." It is pointed out by the Daily Mail that before hearing this slogan is just arriving in London at an opportune moment, when the Dominion premiers are discussing the better distribution of the empire's population.

Plenty of Work in North

Prince Albert, Sask.—Northern Saskatchewan has 2,700 winter jobs open for British harvesters, 300 of whom can be placed immediately, said F. J. O'Leary, District Superintendent of the Soldiers' Settlement Board for Northern Saskatchewan. The vacancies are divided between 1,700 industrial and 1,000 farm positions.

Britain Would Lend Financial Assistance In Dominion Development

London.—The British Government has submitted further proposals to the Imperial Economic Conference. There has been offered the Dominions an increased tariff preference on certain articles and one of financial co-operation in development schemes.

The financial proposals come under two heads, the first applying more particularly to crown colonies. (1)—a guarantee of interest and capital invested in development schemes; (2)—an advance of part of the interest over a period in respect to anticipated schemes put in hand before normal times.

The proposals are in reality an extension of the Dominions and the Crown colonies of financial assistance which the British Government has been giving local authorities and public utility companies at home. To the effect, equalities are attached. These are mainly that the enterprise assisted must be for the general development of public utilities similar to those assisted in Great Britain; that development would obviously have to be accelerated by the adoption of the scheme; that orders would be placed in Great Britain; that there would have to be some form of joint responsibility with the overseas government.

The Dominion representatives received the proposals favorably. Sir James Gordon observed that Canada was becoming an industrial, as well as an agricultural, country. Canada was pretty well provided for at present with such public utilities as harbors,

To Film Buffalo Hunt

Reported that Indians Will Participate in Killing Buffalo at Wainwright. Edmonton.—Ten thousand "shaggy monarchs of the plains" in wild, untamed, mad stampede, with their ancient enemies, the redskins, stripped to their copper waist, flying on wiry ponies at the flanks of the huge beasts and shooting feathered barbs into vital spots from bows.

Such scenes of bygone days, before the coming of the white man, will be lived again in Alberta in a fortnight's time, when 150 Cree Indians from the Hobbema reserve, near Wainwright, will be taken to the Wainwright Buffalo Park to help in the execution of some of the 2,000 animals already destined by the Government for slaughter.

Hearing that the buffalo herd was to be cut down, an American movie firm obtained permission to "shoot" just such scenes as they are requiring, with the help of the Indians, and the mad stampede will be one part of the picture.

The Hudson Bay Company's manager at Edmonton, G. Munroe, was approached to help in obtaining the Cree, with the result that J. O. Frost, of that company, has arranged for 150 Indians to erect their tepees at Wainwright as soon as they have gathered in their harvests on the Hobbema reserve.

Needless to say, the arrangement suits everybody, as the Government has to reduce the herd, the movie men want the picture and the redskins will get well paid for their work, in addition to being tickled to death to get the chance to hunt buffalo.

Work of photographing the herd is at present being carried out in the park at Wainwright, and the picture corporation is prepared to spend \$50,000 on the scenes with the buffalo alone, but the real excitement will not commence until the Indians arrive, under Mr. Frost.

Shareholders Must Pay

Liquidator of Home Bank to Take Action to Collect Unpaid Balances.

Toronto.—The liquidator of the Home Bank, O. T. Clarkton, is at work upon the list of shareholders, and as soon as this is prepared some action will be taken to collect the unpaid balances on shares. There are about 175 shareholders who have not paid up, and about 160 of these are in the western provinces. The aggregate is about \$50,000. The unpaid balances will be collected and legal processes employed to facilitate it, if necessary.

Not only will these shareholders have to pay the balance owing on their stock, but another payment on the value of the stock as the double liability as well. The 101 estates which are shareholders will also have to put up the double liability. Those who hold shares in trust for infants will be in the same class. The shareholders not paid up run from one to five shares each mostly, seven having ten shares.

Wilson May Run For President

Washington.—Friends of former President Woodrow Wilson and prominent Democratic leaders declare he is willing to become a candidate for the presidency in 1924, should he be called. Mr. Wilson has neither confirmed or denied this report, but those who are in a position to know affirm his health is much improved and that in case of nomination by the Democratic party, he would enter the presidential race.

Submarine Fatality

San Pedro, Calif.—Two men were killed and six injured in an explosion on the United States submarine 837.

Geo. E. Jenkins, Editor and Proprietor of The Clarion, Cabri, Sask.

Ontario Will Float

Forty Million Loan

Bonds Will Be Offered In Other Provinces As Well.

Toronto.—Following the successful marketing of the Dominion of Canada loan which was so extensively oversubscribed, the province of Ontario has arranged for a syndicate to handle a \$40,000,000 loan. In a statement issued, W. H. Price, Provincial Treasurer, announces "having concluded arrangements with a strong syndicate to handle \$40,000,000 province of Ontario five per cent. bonds due at the end of 25 years."

It is understood that the price is considerably better than the province received by public tender for the proposed issue of \$15,000,000 and declined, recently. The bonds will be offered not only in Ontario, but in the other provinces as well.

Canada Impresses

Swiss Editors

Visitors Think Country Offers Splendid Opportunity For Emigrants.

Montreal.—"We have been deeply interested in the many things we saw in Canada and believe there are splendid opportunities in this country which should appeal to those of our people who desire to emigrate and settle here," declared Ernest Heitman, acting as spokesman for the party of Swiss editors who have been travelling through the Dominion as guests of the Canadian Pacific Railway. Vancouver appeal to Heitman. "It should become a wonderful port when it is developed," he said.

Children Greet Lloyd George

Thousands Released From Toronto Schools to See Visitor.

Toronto.—First impressions of Toronto presented for Rt. Hon. David Lloyd George and his party was unusually suggestive of coming generations. Thousands of school children, released from school to see Britain's distinguished war premier, lined the route from the Union Station to his first appointment here had greeted him.

Workers Eager For Sick Pay

Orizaba, Mexico.—The day after the new workmen's compensation law became effective in Orizaba—it provides full pay while 100—500 employees reported on the sick list. The day before only six were ill.

There are two railroad systems in the Philippines with a total mileage of about 800.

Suggest Conference Of Premiers To Discuss The Banking Situation

For Empire Unity

Lloyd George Wants to See British Empire Strong and Mighty.

Toronto.—An Empire message was delivered by David Lloyd George, the war-time premier of Great Britain, during his visit to the city, whose contribution to the world war was one of the most notable in the entire Dominion.

Expressing thanks for the aid given in the war by Toronto and Canada, he made a plea for unity within the Empire and among all its constituent parts that Great Britain may be strong in critical days.

Conditions in Europe, he continued, were such that he feared unless something intervened there might be another catastrophe.

"That's why I want to see the British Empire strong, mighty," he declared, "so that when the cry of war goes up the British Empire will say 'Halt' and then the cry of war will stop."

Storm Takes Heavy Toll

St. John's, Nfld.—Twenty to thirty lives, in addition to those already reported, may have been taken by the hurricane which swept the Atlantic the first of this month, and four Newfoundland vessels are being anxiously awaited at Newfoundland ports, with the hope that they may yet arrive and dispel the fears concerning them. None of the vessels has been reported.

ASPIRIN

Say "Bayer" and Insist!

Unless you see the name "Bayer" on package or on label you are not getting the genuine Bayer product proved safe by millions and prescribed by physicians over twenty-three years for

Colds Headache Toothache Lumbago Rheumatism Neuralgia Pain, Pain Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoceloides of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Montreal.—That Hon. L. A. Taschereau, Prime Minister of Quebec, should convene a conference of the premiers of the several provinces most directly concerned by the failure of the Home Bank of Canada, and that the assembled premiers should pledge themselves to the opening of provincial banks in the event of the final failure of the Canadian Bankers' Association to take ameliorative action in the Home Bank matter, was the suggestion of Bernard Rose, K.C., at a meeting here of Montreal depositors in the Home Bank.

The tone of the meeting, largely influenced by the late gloomy reports concerning the condition of the Home Bank and the refusal of the Canadian Bankers' Association to take action, was far more bitter than such meetings have been hitherto, the Federal Government and Canadian Bankers' Association must have been aware of the common prediction that the depositors would get about 45 cents on the dollar.

Mr. Rose, in opening his speech, announced that he intended to fight for the present 60-cent depositors who were the "innocent victims of a group of conspirators who held the reins of office."

He advised all depositors to write letters to members of parliament, to the provincial premiers, to any and all persons likely to have influence in the matter. Pressed for action, he said, should all be called upon to aid.

C. Lester, representing the federation of employees of the Canadian Pacific Railway, whose funds were deposited in the Home Bank, believed that as the Canadian Bankers' Association must have been aware of the precarious straits of the Home Bank before the debacle, it should be held "criminally responsible."

After deliberations lasting more than an hour, the delegation of Home Bank depositors which waited on the Canadian Bankers' Association failed to obtain any further concessions from that body.

The bankers announced they were not prepared to assume the liabilities of the Home Bank and did not consider it their business to put any recommendations before the shareholders of the various other banks in the way of inviting them to do anything to make good the losses of Home Bank depositors.

The banks were quite willing to face any suggestion that might arise out of the people living faith in banks through the refusal of the bankers to further intervene on behalf of Home Bank depositors, if an agitation were to arise on this subject, the bankers said.

May Return In Two Years.

Montreal.—Commenting on the pleasure he had experienced while in Canada, Lord Renfrew told Mayor Martin he would return to Mayor in two years, in all probability.

Reduction Of Freight On Grain Shipments To Pacific Coast Ports

Victoria, B.C.—Decision of the Railway Board to grant a 10 per cent reduction in western grain rates is apparently a temporary arrangement to aid the marketing of this year's grain crop, and in no way affects British Columbia's appeal to the Privy Council for an equalization of rates generally. Premier Oliver explained in a statement.

"I do not consider this ruling in any way affecting the merits of our general appeal, but is in the nature of an immediate step to meet a condition which could not very well wait until a decision on the merits of our appeal was reached," said the Premier.

"Our appeal for equalization of rates generally is still before the Privy Council and is not necessarily affected by this decision."

Ottawa.—"I am entirely in agreement with the contention of the provinces of British Columbia and Alberta," said Hon. Frank Oliver, of Edmonton, in his judgment dissenting from the majority decision of the Board of Railway Commissioners on export grain rates from the prairies. "The grain producers of the prairies, the bulk of whose product must find an export market, has the right to an equal per mile rate over the National Railways westward to the ocean ports of Vancouver and

Prince Rupert as has been given him by Parliament over the same system to the lake ports of Fort William and Port Arthur."

The majority judgment, in which the other members of the board concurred, made a reduction of 10 per cent on the export rates on grain from the prairie provinces to the Pacific coast. Commissioner Oliver found that the reduction was inadequate. Mr. Oliver disagreed with the contention of British Columbia that it was proper to compare westbound and eastbound rates in all cases on a mileage basis, holding that the comparison was valid only where appropriate conditions were on an approximately equal basis.

Local and General Items

Miss Wheatley is taking up nursing in a Calgary hospital.

Church union in Australia has been defeated by the Presbyterians.

Paralysis has been known to cause a man to stay at home with his wife for several years.

Vancouver must raise half a million dollars for the construction of new city schools.

Mr. A. M. Elliott is a patient at the local hospital, having been operated upon for appendicitis on Sunday last.

Tom Richardson addressed a party of fifty "prohibitionists" (?) at the Oddfellow's hall on Monday night. No bootleggers were present.

Three innocent girls have been shot at in Ontario by police who were instructed to do shooting and who mistook the girls for rumrunners.

A farmer at Leamington, Ontario, realized \$1280 from one acre planted to onions this year. Sown in wheat, he might have realized \$30 from the same space.

Miss Elizabeth McLeod left for Calgary on Sunday night, accompanied by her father and mother, Mr. and Mrs. McLeod, where she enters an hospital to take a course in nursing.

At the regular meeting of Coleman Lodge No. 36, on Monday night last, the Second Degree was conferred on a class of candidates. A large number of Oddfellows were present from Michel and Blairmore.

Oddfellows are invited to the regular meeting of Michel Lodge on the night of Friday, October 26th, when the Initiatory Degree will be conferred. Following the meeting a smoker-social will be held.

Hugh MacBeth, one of the pioneers of the West, passed away at Lethbridge at the age of sixty-five years. His son Roddy, in the employ of the Swift Canadian Co., is well known in this district.

In an effort to bring gasoline down to what the mayor termed a reasonable price the city of Charleston has entered the retail gasoline business. The council passed a resolution providing for the purchase of gasoline in tank-car lots to be disposed of to citizens at actual cost price.

The Toy Fair Chamber of Commerce, of 200 Fifth Avenue, New York, advises the American Consul at Fernie of the coming fair for 1924, which will be held from February 4 to March 8 and will be the most complete exhibition of toys ever held in America.

Mayor Duggan, of Edmonton, as president of the Union of Alberta Municipalities, requests the municipalities of the province to have representation at a meeting to be held in Calgary on Wednesday next, October 24th, when the progressive encroachment of the provincial government into the sphere of taxation, which rightly belong to the municipalities, will be discussed.

Acting on behalf of the widow and children of the late John R. Cowell, former clerk of the Alberta legislature, whose death took place at Victoria, B.C., on April 16th last, the executors of the estate have filed a writ in the Supreme Court of British Columbia, bringing action against the Canadian Pacific Railway Company in the sum of \$95,000. The plaintiffs allege that it was as a result of food eaten in defendant's restaurant in Vancouver that the late Mr. Cowell came to his death.

President E. W. Beatty, of the C.P.R., celebrated his forty-sixth birthday on Tuesday.

Bootleggers all wear smiles when at midnight they hear: "The way is open; enter thou!"

Samuel Gompers was on Friday last unanimously re-elected president of the American Federation of Labor.

The local lodge of Pythian Sisters will hold a whist drive and social in the L.O.O.F. hall tomorrow (Friday) night.

Turtle Mountain Lodge, Knights of Pythias, will hold a grand confetti dance at Hillcrest on Monday night next.

The Doukhobors are looking for the Blairmore party who last week killed their pet rabbit (?). It's color was white and it's tail cut long.

Fire on Tuesday morning destroyed an entire business block at Granum. The loss, estimated at \$100,000, is partly covered by insurance.

The Calgary Herald observed its fortieth birthday by issuing a special illustrated and descriptive edition of 114 pages on Saturday last.

Mrs. Peter Patterson and daughter, Mrs. F. P. Campbell, of Kimberley, B.C., returned this morning from Calgary, where they had been visiting Mrs. J. W. Verge and Miss Elizabeth Patterson.

The Third Degree will be conferred at the regular meeting of Blairmore Lodge No. 68, L.O.O.F., on Tuesday night next. All members are urgently requested to attend.

TIRES AT BARGAIN—We have one 32x4 and one 38x4½ cord tires, newly retreaded, as good as new, at a bargain. If interested, call at the Vulcanizing Shop, W. M. Bush, prop., Blairmore.

A tea in aid of the bazaar fund of St. Anne's church, will be held at the home of Mrs. J. E. Gillis, on Wednesday afternoon next, October 20th, from 3 till 6. Ladies are kindly requested to bring some small article suitable for the children's fish pond.

The jury hearing the case of James B. McLachlan, former secretary of the Nova Scotia United Mine Workers, charged with seditious libel, in a letter published during the last strike of steel and coal workers in Cape Breton, have reported a verdict of guilty. McLachlan but recently addressed a meeting in the Orpheum theatre, Blairmore, on the subject of the Nova Scotia strike.

Chief Houghton, of the Coleman town police, was knocked out one night last week when about to institute a search of premises for liquor. He was hit behind the ear with such force as to render him unconscious several hours. The assailant is still at large and so far no means of identifying him have been secured.

Alberta has won an additional honor through the medium of the Edmonton "Grads" basketball team, champions of the world, who have been granted permission by the amateur union of Canada to represent the Dominion in Paris, France, in 1924, during the Olympic games.

As a result of the tea given at the home of Mrs. A. Sherring, Frank, on Wednesday afternoon of last week, the funds of Bellevue Methodist church were strengthened to the extent of about \$25. Among the Blairmore folks to attend were Mesdames Chappell, Fisher, Kidd, Pasmore, Bird, McDonald Gresham, Scott, Ferguson, Patterson, Brehler, Davis, Walker, Dicken, McKay, Slimester, Baird, Elliott, McKennie, Smith, Green, Gills, Henderson, Dunlop, Oleson, Holloway and Anderson.

WHY YOUR TROUSERS

should be made by us to measure. Ill-fitting trousers spoil the entire effect of a suit no matter whether the coat and vest fit all right. Besides, there's your comfort to consider. Waist too tight or too loose, neat the same, pinching crotch, ungraceful legs, awkward draping give you a sorry appearance. Try us on your next trousers and see the vast difference tailoring makes.

The police run-chasing car was in The Pass today. "This car is armed with a high-powered machine gun that should have been put to use over in Europe in 1916.

In 1885, John Kean planted the first trees ever grown on the townsite of Lethbridge. Today, on the boulevards alone there are more than five thousand trees, spaced at intervals of twenty feet apart. In the city parks there are another 25,000 trees and thousands are growing on the home properties of citizens. It is a city of trees—Canada Forestry Journal.

'At the annual meeting of the shareholders of Coleman Crystal Rink on Monday evening, the financial statement for last season was submitted by Secretary E. F. Gare. The report was most encouraging, showing that the total receipts for the season amounted to \$4,571.25, with disbursements of \$2,578.30, leaving a net profit for the first season of \$1,992.95. At the meeting Mr. Gare desired to be relieved of duties as secretary-treasurer, and in his stead Mr. Chas. Scott was elected to that office. Prospects for the coming season are said to be even brighter.

SILVER SERVICE

has its place in every household. Some designs are ordinary, others artistic and beautiful. The last kind can be found here.
